

Washakie County School District #1

PARENTAL/COMMUNITY INVOLVEMENT PLAN

Washakie County School District #1 encourages all parents to be actively involved in their child's activities and achievements. The hope is to make this involvement of parents and community members possible in one or more of the following ways:

1. Create partnerships in the community, to help out in the education of our children.
2. Encourage our students to be involved in community activities and take an active role in realizing how they can be a productive citizen of our community, state, nation and world.
3. Encourage parents and community members to visit our school setting and take part in our programs.
4. Encourage parents to come to parent-teacher conferences.
5. Encourage parents, grandparents, and community members to help in our classrooms and special programs.
6. Encourage parents and teachers to attend the parent teacher group meetings.
7. Encourage parents, students, and community members to come celebrate Open House Nights.
8. Encourage parents to help sponsor activities to enhance the academic success of our students.
9. Encourage parents to utilize materials and training activities to help support our student's success.
